

GOWTHAMAN R

Master of Computer Applications (MCA) Student

Bangalore, India

gowthaman.r@example.com

linkedin.com/in/gowthamanr

TECHNICAL DNA

Languages

Python JavaScript
TypeScript SQL

Web Technologies

React.js FastAPI
Node.js Tailwind CSS

AI & Data

Deep Learning
CNN / RNN Pandas
Scikit-learn

Databases

PostgreSQL MySQL

CERTIFICATIONS

- Google Cybersecurity
Coursera, 2024
- Cloud Computing
NPTEL, 2023

WORKSHOPS

- Quantum Leap
National Workshop,
2026

ACADEMIC PROFILE

Master of Computer Applications (MCA) 2024 - Present
Kristu Jayanti College, Bangalore

Bachelor of Computer Applications (BCA) Completed 2024
[Undergraduate Institution]

KEY PROJECTS

GradeMaster: Predictive Career Intelligence System

- Developed a full-stack web application using React and FastAPI to predict student placement probabilities.
- Implemented a predictive scoring algorithm based on academic grades (40%), technical skills (40%), and certifications (20%).
- Designed a dynamic "Placement Hub" to map student profiles to specific job requirements with visual proximity heatmaps.

Tenancy+: Rental Management Application

- Created a system to streamline coordination between property owners and tenants.
- Integrated features for rental tracking, automated communication, and document management.

ACADEMIC INTERESTS

- Quantum Computing and its applications in cryptography.
- Advanced Deep Learning architectures including GANs and Neural Networks.
- Cloud Infrastructure and Cybersecurity protocols.
